Leman Solicitors are delighted to announce a partnership with Transact.ie, an e-conveyancing platform, for the sale of new homes.

Together we have collaborated with our pool of existing developer clients to revolutionise the new home sale process. We recognise the inefficiencies in the way new homes are currently sold:

-  **Outdated Process:** Non-interactive Excel spreadsheets used for status updates;
-  **Avoidable Delays:** From booking deposit right through to handover of keys;
-  **Unnecessary Costs:** Needless outlay (reams of paper, lengthy daily calls, postal fees) equals frustrated developers.

We have teamed up with Transact.ie to digitise the sale of new home developments bringing the developer on a transparent, interactive and efficient journey.

-  **Transparent** – 24/7 access to live digital view of the entire development at the click of a button = no more lawyers hiding;
-  **Interactive** – Automatically generated notifications to all stakeholders at each stage of the process keeping everybody accountable;
-  **Efficient** – Live customisable dashboard providing priceless data and our unique digital technology gets contracts signed faster: paperless process, e-signature compatible and heaps of time saved for all stakeholders.

We are excited to join forces with Transact.ie and deliver a game-changing process for developers in the new homes market!
