About Us / Our Services

Ogier Leman are Ireland's most innovative law firm. We specialise in Technology, Real Estate, Life Sciences & Financial Services. We are a unique legal business providing an outstanding client experience by the most efficient means.

LexTech is a legal technology company with a mission to transforming the legal functions of business through digitisation, automation and data capture. The digital transformation of repetitive legal and regulatory processes delivers efficiency, saves cost and minimises risk, giving business the competitive advantage.
